alpine intro
& autonomy

Alpine Introduction

If you are a keen hillwalker who has always wanted to climb in the Alps, to venture onto glaciers, and to attempt a 4000m peak, this is the course for you. It teaches a complete novice the skills needed for the Alps, including glacier travel, ropework, ice climbing, rock skills, navigation, and crevasse rescue. You spend a night in a high mountain hut, have an Alpine start for a route, and ascend Gran Paradiso 4061m which is the highest peak in Italy. By the end of the week you should have climbed vertical ice, learned key ropework, travelled over glaciers, led a rock route, and climbed a 4000m mountain. Great for a first Alpine trip! If you fancy climbing Mont Blanc after this week, you could consider the two week Mont Blanc Achievement trip, or a two day Mont Blanc extension.

Sun: briefings & kit checks, Mon: mountain skills and navigation (1:6), Tue: crampon techniques with glacier travel and ice climbing (1:6), Wed: mountaineering route at altitude (1:6), Thu: rock climbing and trek up to mountain hut (1:3), Fri: Gran Paradiso 4061m (1:3), Sat: depart. Price: £849. Dates: 26 Jun - 2 Jul, 10-16 Jul, 24-30 Jul, 7-13 Aug, 21-27 Aug, 4-10 Sep 2016.

Autonomy Techniques

If you have used crampons for winter hill walking or mountaineering before, and have either scrambling or rock climbing experience, then you should choose this rather than the Alpine Introduction course. This is a fast track course that is designed to make you more autonomous in the Alps. You cover the technical syllabus of the Intro course in greater detail, with smaller guiding ratios and a focus on moving together and leading. At the end of the week you have the choice of two day routes, or a two day ascent of an Alpine peak with a night in a hut, such as Domes du Miages, Mont Velan, or Mont Blanc du Tacul. Alternatively you can opt for two technical day routes. We aren't scared of making you autonomous, to attempt future Alpine climbs on your own.

Sun: briefings & kit checks. Mon: glacier travel & ice climbing (1:6). Tue: mountaineering ridge climb (1:3). Wed: altitude snow route and crevasse rescue (1:3). Thu: glacier ascent to mountain hut for the night (1:3). Fri: main Alpine ascent (1:3). Sat: depart. Price: £999. Dates: 19-25 Jun, 3-9 Jul, 17-23 Jul, 31 Jul - 6 Aug, 14-20 Aug, 28 Aug - 3 Sep 2016. Extra dates for groups of 3 booking together.

Glacier Haute Route trek

This is the tough glacier version of the Walkers Haute Route. Traverse glaciers from Chamonix to Zermatt, staying in huts each night of the trek. Led by an IFMGA guide, and the trip culminates with an ascent of Breithorn 4164m. We provide all the technical kit in the course price.

Sat: briefings, Sun - Sat: guiding, Sun: depart. Price: £1499. Dates: 9-17 Jul, 13-21 Aug, 27 Aug - 4 Sep 2016

Glacier Safety Weekends

mont blanc
summit

Mont Blanc Summit Week

Our most popular course tackles the highest mountain in the Alps. We summit by either the traverse of Trois Mont Blanc over the shoulder of Tacul and Maudit, or via the classic Aiguille du Gouter. We carefully designed our itinerary to assist your acclimatisation, and to offer several summit weather windows. The itinerary is deliberately flexible to help maximise your summit chances. Your guide will suggest preparation routes tailored to your experience, such as the Cosmiques Arête, Petite Verte, or Gran Paradiso. You should be in great physical shape for Mont Blanc, as the climb involves over 1300m of ascent on a snow ridge using crampons, and your stamina and determination will be tested to the limit. Any previous mountain skills or altitude experience will be beneficial to increase your summit chances.

Sun: briefings & kit checks, Mon: glacier crampon skills and ice climbing (1:6), Tue - Fri: preparation training routes and Mont Blanc summit, with one (inc) or two nights in mountain huts (1:2), Sat: depart. Price: £1449. Dates: every week between 19 June & 10 Sept 2016.

Mont Blanc Achievements

A popular two week course for those who need more time to acclimatise and learn skills, before their ascent of Mont Blanc. Price: £2099 (Intro + Mont Blanc = £2298. Save £199). Dates: 26 Jun - 9 Jul, 10-23 Jul, 24 Jul - 6 Aug, 7-20 Aug, 21 Aug - 3 Sep 2016.

matterhorn
& eiger

Matterhorn 4478m ascent

This iconic mountain attracts climbers from all over the world. There are two classic routes on the peak; the Hornli Arête from the Swiss side above the town of Zermatt, and the Lion Ridge from Cervinia in Italy. Either route is a serious undertaking, and it will test your balance, fitness and ability with exposure. You prepare by ascending classic Alpine routes such as the Dent du Geant or Rochefort Arête. On the ascent of the Matterhorn, we use a 1:1 guide ratio to maximise safety. In terms of previous experience, many clients have climbed Mont Blanc or another Alpine PD+ / AD grade route. Some experience of outdoor rock climbing, crampon use and exposed scrambling is essential for this course. Since its renovation, the Hornli hut has more limited space, so book early to guarantee your place.

Sun: briefings & kit checks, Mon-Wed: Training and summits (1:2), Thu-Fri: Ascent of the Matterhorn (1:1), Sat: depart. Price: £1799. Dates: 10-16 Jul, 17-23 Jul, 24-30 Jul, 31 Jul - 6 Aug, 7-13 Aug, 14-20 Aug, 21-27 Aug, 28 Aug - 3 Sep, 4-10 Sep 2016.

Eiger Mittileggi 3970m

Probably the most famous peak in the Alps, the Eiger towers above the Swiss village of Grindewald, with its foreboding North Face almost always in the shade. As you look upwards from Kleine Scheidegg, the Mittileggi runs along the top left ridge of the face and offers competent Alpinists a hard and very exposed climb. Before this course you should have good Alpine experience such as classic AD grade routes. From the Mittileggi hut, the climb is a mixture of rock towers with some fixed lines, and steep snow, so good experience on both rock and snow is essential. The descent is longer than the ascent, and makes its way down to Monchsloch, before you return to Jungfraujoch. Here you take the train down to Grindewald through a rock tunnel descending behind the north face of the Eiger.

Sun: briefings, Mon-Wed: Training acclimatisation climbs (1:2), Thu-Fri: traverse the Eiger Mittileggi (1:1), Sat: depart. Price: £1699. Dates: 10-16 Jul, 17-23 Jul, 24-30 Jul, 31 Jul - 6 Aug, 7-13 Aug, 14-20 Aug, 21-27 Aug, 28 Aug - 3 Sep, 4-10 Sep 2016.

Alpine Trilogy course

This two week course attempts to ascend the three key Alpine giants of Mont Blanc, the Eiger and Matterhorn. The first week follows the Mont Blanc Summits course, then the second week is five days 1:1 guiding in which to attempt the Matterhorn and Eiger. A serious challenge, with a highly flexible second week, to allow for weather windows and conditions. A high level of fitness and motivation is required.

Price: £3499. Dates: 3-16 Jul, 10-23 Jul, 17-30 Jul, 24 Jul - 6 Aug, 31 Jul - 13 Aug, 7-20 Aug, 14-27 Aug, 21 Aug - 3 Sep, 28 Aug - 10 Sep 2016.
